

Provincial Qualifiers Information Sheet

Registration Opens: March 26, 2021

Registration Deadline: April 8, 2021

Awards Announcement: April 15, 2021

Dear qualifying student and parent/guardian,

On behalf of the ASD-N STEM team, we would like to congratulate you on qualifying for the North-West Regional Science Fair organized by Science East. This letter will provide you with information to help in the next steps for competing at the provincial level.

You now have an opportunity and are encouraged to make improvements to your project and incorporate them into your provincial submission. These can be anything from collecting more data, a deeper analysis of results, more pictures (especially of prototypes, journals, etc), **correcting safety or ethics issues**, or simply editing wording.

The judges at the provincial event will follow a similar evaluating guide as your project was judged at the district level: [CWSF 2021 Judging Rubric](#)

Please use the submission process here: <https://bit.ly/3fn2RB>

Read the following Safety & Ethics Guidelines very carefully as your project will not qualify if these guidelines are not met: <https://bit.ly/3d41FjC>

If you still have questions or would like more guidance on preparing for the provincial competition, you can contact Becky Geneau (Director of Programs – Science East) at becky.geneau@scienceeast.nb.ca or Krista Nowlan (Science /Cross-Curricular Lead ASD-N) at krista.hamilton2@nbed.nb.ca

Congratulations again and best of luck competing at the Provincial level!

Sincerely,

The ASD-N STEM Team
