Learning for a Sustainable Future

LSF is a Canadian charity that works to integrate sustainability education into Canadian schools. Access their extensive list of programs and resources for the classroom here

In Local News...

ASD-N ICE Centre

Intro to Aviation & Aerospace

In this course, High School students in the Miramichi area are given the opportunity to develop their flying skills through virtual simulator training and coaching from a licensed Commercial Pilot. Recently, students even had the opportunity to see a CC-130H Hercules land and take off! **Did you know? You can book an airport tour and/or in-class visit with pilot and teacher, Jody Coakley!** Personalized to any grade level. Reach out today: Jody.Coakley@nbed.nb.ca

Smarter Science

Smarter Science is a framework for teaching and learning Science in grades K-12 and for developing the skills of inquiry, creativity, and innovation in a meaningful and engaging manner. The Grade 3-10 renewed Science curricula are supported by this framework. Find the resources on [STEMNorth](#) and access the D2L course by emailing krista.nowlan@nbed.nb.ca

Try This!

Discover the extraordinary in the ordinary!

What is the difference between looking and seeing? Hearing and listening?

Take a walk, and discover!

Walk in Wonder

Marcher dans l'émerveillement

This activity supports outcomes in Science, Literacy, Outdoor Education, Visual Arts and Physical Education.
