ASD-N Aviation visits KSE!

As part of ASD-N's ICE Centre Aviation Outreach Program, teacher and certified pilot, Jody Coakley, visits classes around ASD-N to share his passion for aviation education. Recently, Jody visited a French Immersion class at King Street Elementary and shared a lesson and activity on the four forces of flight! To learn more about this program, please reach out to rob.lehnert@nbed.nb.ca

Partners

Engage high school students in immersive climate education with The Gaia Project Climate Action Project. This program offers Science and Climate Justice streams, integrating seamlessly into various subjects. This 4-6 week program, with ongoing staff support, empowers students to research and present on sustainability topics aligned with course content and interests. Teachers can sign up for free at thegaiaproject.ca or contact contact@thegaiaproject.ca for information.

Professional Learning Ignite your STEM Spark!

Join Science East as they present 'Ignite your STEM Spark'! The aim of this workshop and PL is not only to inform, but also to inspire and empower students to take an active interest in STEM and participate in upcoming STEM Fairs. Join student sessions on Nov. 6th and attend the teacher session at 3:15! Thank you to ASD-South for hosting and organizing!

French Student Session 10:05-11:05am
English Student Session 12:40-1:40pm

Total Solar Eclipse April 8th, 2024

Discover the Universe is a program offered by Canadian astronomers. They support science education by providing free, easily accessible astronomy resources for teachers. Stay tuned for Eclipse 101 training and student workshops offered in ASD-N later this month!
