## In Local News...

### Rock Talk with a Geologist!

Students at Terry Fox Elementary interviewed a “real Geologist” using Garageband then went out into the field to find cool rocks! Learn more about their relevant learning opportunity on Twitter: [@meaghanwilbur](https://twitter.com/meaghanwilbur).

Tag @STEMNorth on social media for a chance to be featured in one of our upcoming newsletters!

## Partners

The NB Centres of Excellence, now encompassing five centres, provide essential educational support to K-12 classrooms. They offer a variety of in-person support, resources and expert speakers, and cover diverse academic and professional fields. These centres are an invaluable resource for educators to enhance curricula and engage students in real-world experiences. Visit their site for resources and more information: [Centres of Excellence](#)

## Funding Opportunities\$

With the deadlines for Climate Action and Innovation grants passed, we know that there are some ideas and projects just getting started that would benefit from funding opportunities this year. Check out the link below for ideas and applications from NB and Canadian-based organizations: [Science Funding Opportunities](#)

## Total Solar Eclipse April 8th, 2024

### Eclipse Safety Training

The NB Total Solar Eclipse is just over four months away and ASD-N, in collaboration with EECD and Discover the Universe, is offering Eclipse safety training. Teachers will receive viewers for themselves and their class upon completion of the training, either through live virtual in the new year, or via EECD's D2L course: [Eclipse 2024 and Safety Training](#). You can search for the course in the PL Hub through the 'Discover' button to enroll. This preparation is essential for safely experiencing this once-in-a-lifetime, spectacular cosmic event.

## Try This...

### PocketLab Weather !

High School Teachers!  
With all of our High Schools now equipped with a PocketLab Weather kit, you can explore the free resources and lessons for your science classes on [OpenSciEd!](#)

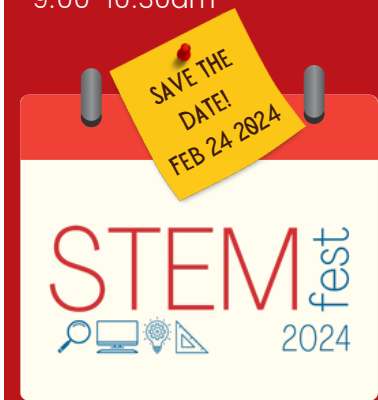

## On the Calendar

December 5, 12, 19  
STEM Storyline with Let's Talk Science (K-3)  
[Let's Talk Science](#)  
2:00 pm (recording available)

December 12  
Takeaway Tuesdays  
[Schedule & Meeting Links](#)  
3:30-4:00 pm

December 19-20  
Gingerbread House Challenge with COE-Energy (K-5)  
[K-2, 3-5 Materials and Instructions](#)  
[Registration](#)  
9:00-10:30am
