Walk in Wonder

Last month, Ms. Breau's Grade 6 class from Gretna Green took a 'Walk in Wonder'. They tried out 2 walks: Sensory Walk and Photo Walk. They practiced noticing what was around them using their 5 senses and also worked on their photography skills! Check out some of their beautiful captures HERE. Try one of the 6 walks with your class:

Marcher dans l'émerveillement

Winter Solstice

The moon is highest in the sky this month and is referred to as 'Chief Moon' by the Mi'kmaq. The Mi'kmaq also celebrate Winter Solstice this month on December 21st. This is a time to honour and pay respect to the gifts of the northern direction. A time where we slow down, take care of our mental health by spending time with family, friends and make it a priority to spend time with elders. We must continue learning and choosing something new to learn. One of the best ways to do this is to gather and listen to stories of Mi'kmaq histories. Learn more HERE!

Try This!

Who said you could only blow soap bubbles in the summer?!

Create a time-lapse observation of what happens to your soap bubble in the cold!

Bubbles	Bulles

This activity supports outcomes in Science, Literacy, MSTE and Visual Arts.
