STEMfest 2023

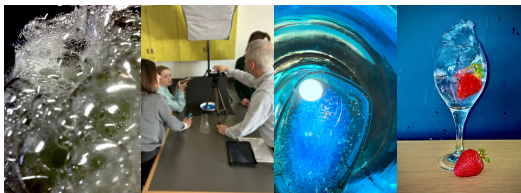

NB Science Week 2023

STEM Fest is back for the first time since 2019! This event has always been an amazing opportunity for our students to showcase their Science / STEM learning as well as have the chance to participate in activities that enhance their skills, knowledge and excitement about the world around them! Register your students or showcase your class projects on Saturday, March 25th! Get all the details on [STEM North!](#)

NB Science Week hit the ground running in the spring of 2021 as an adaptation to the ongoing uncertainties in our lives. What began as a virtual replacement for STEM fairs, quickly became a large and successful province-wide event for all Anglophone School District teachers and students. The goal of the week is to inspire a love for Science and recognize its importance in our daily lives. NB Science Week 2022 saw over 70 virtual sessions and participation from 3459 classes across NB. Read about NB Science Week 2022 [HERE](#).

Stay tuned for information on how to join us April 24-28 for NB Science Week 2023!

In Local News...

Seeing Science

Students at NSEE and MAA have been observing, investigating, recording, appreciating, and sharing the wonders & phenomena around them through a scientific and artistic lens. Leveraging the built-in power of Apple iPads, students will create a beautiful art piece that reflects skills and knowledge they've acquired through a scientific investigation they are passionate about. Follow this pilot project on [STEM North!](#)

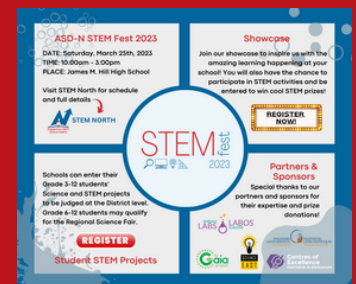

ASD-N Partners

ASD-N would like to acknowledge the support from these core organizations currently and over the years. Click each logo for more information about how they can directly support your learning in your classroom.
