Get Inspired!

STEM / Science Fair Resources

mySTEMspace.ca is designed to inspire and support students to use their passion and skills in STEM to address global challenges. It offers resources to help initiate and plan projects, perform experiments, analyze results, and share STEM project stories. The site features a library showcasing projects and even has a personal AI assistant to help get students started. Visit mySTEMspace.ca for more info.

Total Solar Eclipse April 8th, 2024

Eclipse Safety Glasses

The NB Total Solar Eclipse is just under three months away! Do you have your Eclipse 101 training so you can receive Solar Viewers for you and your class? Don't miss out on this once-in-a-lifetime spectacular cosmic event! If you've already received your training, please complete [THIS FORM](#). If you have not, please visit the NB PL Hub and search 'Eclipse' to find and complete the training.

Saturday February 24th 2024

Our Annual ASD-N STEM Fest is just over a month away! Last year we saw the successful return of an in-person event with 83 Grade 3-12 students showcasing their STEM learning! Students participated in judging, STEM-based activities, and featured displays from exhibitors. The day capped off with a magical (and loud!) Science Show and award presentations. 27 students were invited to Regionals in Fredericton, and two students travelled to Nationals in Alberta, BC!

Get in on the action this year and share your STEM passion and skills! Keep on eye on Teams, Facebook, Email or [STEM North](#) for updates.

Deadline for STEM Fest registration is Monday Feb. 20th.
