

Science

October 2025

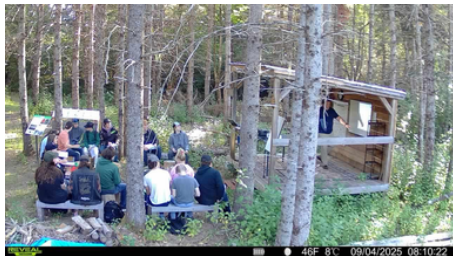

Share your Learning!

We want to see and share all the fantastic opportunities happening in our district for students and teachers. Tag STEM North on Facebook and X and be entered into a monthly prize draw for your classroom!

➔   @STEMNORTH

In Local News...

From BHS Outdoors and Mr. Hallihan's Environmental Science class!

"... students sitting on a cedar stump or a wooden bench while a MS Teams lesson on Ecology is being projected onto the white board using a laptop with a portable battery pack. Showcasing the Merlin app to identify bird species in the area. Promoting outdoor applications where students take ownership of eco-projects in and around this learning environment. Great place to teach Environmental Science and have students engaged in the learning!"

Partners

Brilliant Labs works with young people, educators, and community leaders to develop creativity, innovation, digital skills, and a socially responsible entrepreneurial mindset. View their **Teacher Programming Guide** for information on how BL can support you and your class, from professional learning, grants, resources, project support to kit requests!

Grant Opportunity

GO WILD GRANTS

Go Wild Grants help schools protect and restore local habitats. Past projects include pollinator gardens, forest restoration, and wildlife monitoring.

They fund ideas that:

- Explore local ecosystems
- Create or restore habitat with native plants
- Build lasting community impact

Apply for up to \$1500 by October 24, 2025 to kick-start your project.

On the Calendar

Science Literacy Week
Oct. 6-12

Resources for Educators
This Science Literacy Week, celebrate curiosity, uncover fascinating stories behind the facts, and discover how science shapes every choice we make.

Webinars & Live Broadcasts
Let's Talk Science

- [The Impact of Technology on Learning \(K-12\)](#)
Oct. 1 8:30pm
- [From Past to Possibilities \(4-6\)](#)
Oct. 7 2:00pm
- [Kick-off to Coding \(K-6\)](#)
Oct. 15 8:30pm

Go Wild Grants
Oct. 24
Deadline to Apply
